3M™ VHB™ Tape Universal Primer UV

3M VHB Tape Universal Primer UV is a new priming solution for bonding with 3M VHB Tapes.

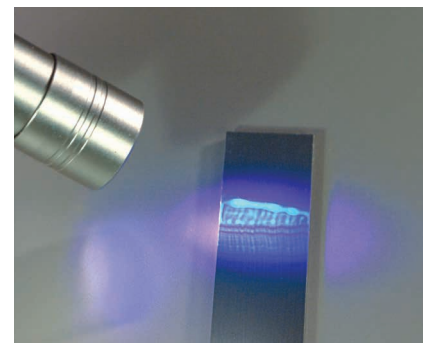

It enables strong, durable bonds on difficult surfaces while improving manufacturer's environmental health and safety profile when compared to using 3M™ Primer 94. 3M VHB Tape Universal Primer UV matches the bonding performance of leading tape primers while offering exciting new features.

Features

- Improved environmental, health and safety profile compared to 3M Tape Primer 94, resulting from:
 - No intentionally added aromatics including: Toluene, Xylene, Chlorobenzene
 - No intentionally added halogens including: Chlorinated Compounds
- Quick dry time to raise process speed and increase throughput
- UV indicator verifies primer application, reducing priming errors and increasing quality control

Quick dry time allows for immediate tape application.

UV indicator helps identify correct application.
